

BROWSER UPGRADES TO BUSINESS EXPRESS

AUGUST, 2009

Business Express has been enhanced to be compatible with more Internet browsers. Please see the list below for browser compatibility.

Microsoft OS/Browser Changes

- In addition to Internet Explorer 7.0, Internet Explorer 8.0 is now supported for Windows XP SP2 and Windows Vista.

Mozilla Browser Changes

- Firefox 2.0x has been replaced with Firefox 3.0.10 for Windows XP SP2.
- Firefox 3.0 has been replaced with Firefox 3.0.10 for Mac OS X 10.4 (Tiger) and Mac OS X 10.5 (Leopard).

Apple OS/Browser Changes

- Safari 3.2 is now supported for Mac OS X 10.4 (Tiger) and Mac OS X 10.5 (Leopard).
- Safari 4.0 is now supported for Mac OS X 10.4 (Tiger) and Mac OS X 10.5 (Leopard).

Note: *If you access Bill Pay using Macintosh Safari 3.1 or 3.2, a new browser window is not opened for the service. Additionally, when you sign off from Bill Pay, you will need to log on to Business Express again. To avoid this situation, we recommend that you upgrade to Safari 4.0 so that Bill Pay opens a new browser window.*

If you have any additional questions about the certified browsers or any other Business Express question, please contact Treasury Management Customer Service at 1-414-466-8000.
